

Geographic Distribution of Services Available to Homeless Unaccompanied Youth in Massachusetts

Summary

The following pages provide an overview of the geographic distribution of organizations in Massachusetts that offer programs for emergency services, shelter, housing, primary and mental health care, case management, education, and other critical living assistance to primarily unaccompanied homeless youth. The goal of this overview is to provide the foundation for further analysis of potential service and housing gaps for this population. However, it is important to note that this document addresses only the locations of services and housing, not the capacity of those organizations to meet the existing need.

Disclaimer

Despite extensive research of programs across the state, we have been unable to identify resources in certain regions that specifically serve unaccompanied homeless youth. However, we recognize that this matrix may not be complete, as some privately funded smaller programs or specialized services for youth within larger programs may not have come to our attention. We will continue our efforts to identify youth programming for this population and welcome input from others who have knowledge such programs.

Table of Contents

I. Services (Page 2)

Types of services available to homeless unaccompanied youth

II. Geographic Distribution of Services (Pages 3-4)

Map of service organization locations throughout Massachusetts

III. Matrix (Page 5)

Table of service types and service locations throughout Massachusetts

IV. Service Organizations (Page 6)

List of organizations that provide programs for emergency services, shelter, housing, primary and mental health care, case management, education and other critical living assistance to primarily homeless unaccompanied youth
