Committed to ensuring that everyone has a place to call home

Youth Without Homes Can't Wait: Please Sign onto Senator Lewis' Amendment to Push for \$1.5 Million More in the FY'18 Budget for Housing and Services for Unaccompanied Youth and Senator Cyr's Amendment to Secure \$150,000 to Continue the Work of the Special Commission on Unaccompanied Homeless Youth

Building upon the momentum from the January 2015 signing of the unaccompanied youth homelessness bill into law (Chapter 6A, Sections 16W and 16X of the Massachusetts General Laws) and the Legislature's provision of \$2 million for housing and services for unaccompanied youth in FY'17, we are seeking \$4 million in the FY'18 budget to address the housing and support service needs of unaccompanied youth and young adults who are experiencing homelessness, and \$150,000 for the ongoing work of the Special Commission on Unaccompanied Homeless Youth.

Requests:

- **Cosponsor Senator Jason Lewis' youth homelessness amendment for an additional \$1.5 million for a total of \$4 million for housing and wraparound services for unaccompanied youth under the Executive Office of Health and Human Services (EOHHS) line item, 4000-0007.** (\$4 million would be \$2 million above the Governor's FY'18 request of level funding, and \$3.5 million above the House recommendation.)
 - The additional housing and service resources would be **targeted to youth and young adults age 24 and younger who are experiencing homelessness out on their own**, outside the custody or care of a parent/guardian.
 - EOHHS first signed performance-based contracts with providers in April 2016, and recently released an initial analysis of the positive impact of the funds that were awarded to eight regions of the state. (See the report at <https://tinyurl.com/youthdemopjt>.)
- **Cosponsor Senator Julian Cyr's youth homelessness amendment to provide \$150,000 to support the ongoing work of the Special Commission on Unaccompanied Homeless Youth and the annual Youth Count, via the EOHHS administrative line item, 4000-0300.** (Learn more about the Youth Count at <https://tinyurl.com/mayouthcount>.)

Why Now?

There is a desperate need for increased housing, shelter, and service options for youth and young adults age 24 or younger who are living outside the custody and care of their parents or guardians. We know all too well that youth homelessness takes its toll on both the youth and our society at large. People who experience homelessness as adolescents often face bleak outcomes. While many youth are resilient and are able to overcome the ravages of homelessness, homelessness often leads to poor health outcomes including increased risk of death, exposure to violence, susceptibility to exploitation and high risk behaviors, and poor academic performance with increased risk of dropping out of school.

This month, under the leadership of the Massachusetts Commission on Unaccompanied Homeless Youth and in partnership with youth and youth providers, the state is conducting its fourth annual statewide youth homelessness survey through the Continua of Care networks. In last year's Youth Count, 1,965 of the young people who participated in the survey were under the age of 25, and of those young people, 48.3% (949 youth and young adults) indicated that they had experienced homelessness in the past or present, and 25.5% (502 youth and young adults) indicated that they currently were experiencing homelessness. The results are helping to shed more light on the extent of youth homelessness and the needs of young people here in the Commonwealth. See the reverse side for some data from the 2016 survey.

We know that the time to act is now. **The additional \$1.5 million requested for FY'18 will provide much-needed resources to further build up a systematic, effective response to unaccompanied youth homelessness in all regions of Massachusetts, and the \$150,000 will support the ongoing work of the Commission and its annual Massachusetts Youth Count.**
